PROFESSIONAL SUMMARY

BCA student at Galgotias University with genuine enthusiasm for frontend development and a habit of building things to understand them better. I enjoy turning designs into responsive, accessible interfaces using HTML, CSS, JavaScript, and React — and I care about the details that make an experience feel polished. Looking for a frontend internship where I can contribute real work, learn from experienced engineers, and grow alongside a product.

EDUCATION

Galgotias University — Greater Noida, Uttar Pradesh

2024 – 2027

Bachelor of Computer Applications (BCA)

CGPA: 6.7 / 10 · Computer Science stream

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Responsive Web Design

Languages: JavaScript, Java, Python

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, Vercel, Chrome DevTools

PROJECTS

Food Ordering System

2026

HTML · CSS · JavaScript | Live: leesimoyi.github.io/jpx-food-online-ordering

- Built a fully responsive food ordering platform with a browsable menu, item cards, and a running order summary — focused on making the flow feel natural on both desktop and mobile.
- Implemented client-side order management with dynamic subtotal calculations and a clean checkout interface.
- Prioritised accessibility and semantic HTML throughout, keeping the markup screen-reader friendly.

Personal Portfolio Website ■ Live

2026

React.js · CSS · JavaScript | Live: simoyi-portfolio.vercel.app

- Designed and developed a multi-section portfolio from scratch, covering projects, skills, and a working contact form.
- Used reusable React components and CSS custom properties to keep the codebase easy to maintain and extend.
- Deployed on Vercel with continuous integration; site achieves fast load times and smooth scroll interactions.

Barbershop Website

2026

HTML · CSS · JavaScript | Live: lee-hair-cut-premium-barbershop.vercel.app

- Created a 14-page professional website for a barbershop business, complete with service listings, gallery, pricing, and a contact form.
- Applied a consistent design system — typography, spacing tokens, reusable nav and footer — across all pages for a cohesive feel.
- Optimised images and layout shifts so the site loads quickly and looks sharp on any screen size.

CERTIFICATION

NPTEL – E-Business

2025

National Programme on Technology Enhanced Learning · Swayam / IIT

- Studied digital business models, e-commerce strategy, and online payment infrastructure.
- Completed graded assignments and a proctored online examination to earn certification.

STRENGTHS

Problem-solving with a first-principles mindset · Comfortable picking up new tools quickly · Strong attention to UI detail and pixel accuracy
· Clear written and verbal communication · Reliable with deadlines and self-directed work

LANGUAGES

English (Professional) · Shona (Native)
